Presenting CTh lt, v. 1.1.1

This application for Android tablets or phones allows you to read the complete works of St. Thomas Aquinas and search them by keyword, part, bookmark or index.

The text is taken from the website of the Corpus Thomisticum project (www.corpusthomisticum.org).

You can navigate menus in English, Spanish, French, Polish, or Italian.

The app aims to provide students and scholars a tool for basic research on Thomas, available offline (as during seminars or lectures).
You can select a work of the *Corpus Thomisticum* or search by keyword or customizable bookmark or ‘index CT’ (the identification number assigned to each passage in the *Corpus Thomisticum*).

The app gives feedback in the form of a small message displayed on screen when you click on an icon or a menu item.
Structure (II)

The Structure screen contains two grid views.

In both grid, you can make the font larger or smaller by clicking + or -. 

The first grid has ten items, from the Opera maiora to the Opera Aliqua False Adscripta.

From the second grid, you can select a search by 'index CT' or keyword or bookmark.

After selecting Quaestiones disputatae et de quolibet, you will see the screen shown on the right.
After selecting *Quaestiones disputatae*, you will see the screen shown on the left.

Likewise, after selecting *De veritate*, you will see the set of questions shown on the right.

To navigate to *q. 13 a. 4 arg. 7*, choose *Quaestiones 12-13*.
Structure (IV)

After selecting *Quaestio 12*, you will see the screen shown on the left.

The beginning of the selected item (*De veritate, q. 13 a. 4 arg. 7*) is preceded by its corresponding ‘index CT’, in yellow, as shown on the right.

You get its text in the context of the preceding and consecutive items.

You can select various options from menu (e.g., Search by keyword).
You can search by a word or phrase (e.g., EUBULIA). The results are shown on the left, in red and capitalized. EUBULIA was found in several places:

- Super Sent., lib. 3 d. 33 q. 3 a. 1 qc. 3 arg. 1
- Super Sent., lib. 3 d. 33 q. 3 a. 1 qc. 3 arg. 1
- Super Sent., lib. 3 d. 33 q. 3 a. 1 qc. 4 arg. 1
- Super Sent., lib. 3 d. 33 q. 3 a. 1 qc. 3 co.
- Super Sent., lib. 3 d. 33 q. 3 a. 1 qc. 4 co.

Each passage contains a corresponding ‘index CT’, an item name and a beginning of the first sentence of the item. Each case of the word EUBULIA is preceded by dots (…) and a text of maximum length of 150 characters. If you click on an item, you can read the selected item in the context of the preceding and consecutive items.

If you select Super Sent., lib. 3 d. 33 q. 3 a. 1 qc. 3 arg. 1 in the Search screen, you will see the Result screen shown on the right. The preceding and consecutive items are available. You can return to the Search screen to see the other passages containing EUBULIA.
Within the Corpus Thomisticum project, different variants of words are used for the digital transcription of Latin text of works of St. Thomas Aquinas. (e.g., a word judicium is present in the Scriptum super Sententiis, while a word iudicium is used mainly in the Summa contra Gentiles and in the Summa Theologiae).

Word judicium in the Opera maiora:

<table>
<thead>
<tr>
<th>cases places pl. freq.</th>
<th>title-type</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>-</td>
</tr>
<tr>
<td>46</td>
<td>28</td>

<td>86</td>
</tr>
<tr>
<td>267</td>
<td>181</td>
</tr>
<tr>
<td>70</td>
<td>44</td>
</tr>

</table>

During searching by keyword you should take into account different variants of words in the transcription.

Word iudicium in the Opera maiora:

Result and Bookmarks (I)

While reading the text in the Result screen you can add a new bookmark by clicking on an item.

You can set/change a name of the bookmark as shown on the left.

If you select Bookmarks from menu, you will get a list of bookmarks, as shown on the right.

You can rename or delete bookmarks by selecting the corresponding icons.

When you click on the text, written in blue or red color, you get the corresponding item, e.g.:

[11463] Super Sent., lib. 3 d. 29 q. 1 a. 5 ad 3 A...
Result and Bookmarks (II)

After selecting rename icon, you will see the screen shown on the left. You can add your comment, e.g.: my comment.

After selecting YES to rename bookmark, you will get a list of bookmarks, as show on the right.

The newest bookmark will be the first of the list of the bookmarks (at the top of the screen).
Indices CT (I)

As shown down on the left, you can search by ‘index CT’ to find a passage in the *Corpus Thomisticum*.

E.g., to find 73698, select the appropriate range of indices (70001–80000), as shown on the right.
After selecting 70001–80000, you get the screen shown on the left.

Select 73501–74000 to approach 73698 and get the screen shown on the right.
After selecting 73676–73710, you will see the screen shown on the left.

Click on 73698 to read

[73698] Sententia Ethic., lib. 5 l. 10 n. 3
shown in the context of the preceding and consecutive items (Result screen).
